

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

INDEX

TO

THE EAGLE

A MAGAZINE

SUPPORTED BY

MEMBERS OF ST JOHN'S COLLEGE

VOLS I—XV

1858—1889

Cambridge

E. JOHNSON TRINITY STREET

PRINTED BY METCALFE AND CO. LIMITED, ROSE CRESCENT

1891

Educ R 5713.9.41

Sever fund

THIS *Index* has been drawn up under the supervision of the Editorial Committee of the *Eagle*, to commemorate the completion of the first thirty years of the Magazine's existence. The work has occupied nearly two years, and great pains have been taken to make it as perfect as possible. The first part gives in alphabetical order the *signatures* and pseudonyms used by the contributors to the Magazine, with lists of the articles corresponding to each. Then the *Chronicle*, which records the doings of a generation of Johnians, is minutely indexed, every name that occurs finding its place either in the general list or in those referring to the several clubs and societies connected with the College. Misprints in the text have been corrected, and missing initials have been supplied, so far as the information at the disposal of the Editors permitted. Lastly, for convenience of reference, a complete alphabetical list of the *titles* of the literary contributions is appended.

The Editors hope that the *Index* will be welcomed not only by the subscribers to the Magazine, but by all who take interest in the history of the College and its members. They would adopt the words used by their predecessors in the first number, and trust that the *Eagle* may continue to be 'a rallying point and a watchword among us; something to fasten College spirit upon when here; something by which we can carry it down with us when we go away.'

INDEX TO THE EAGLE
